

Department of Automotive Engineering

The department provides engineering education on the subjects of new technologies and production techniques in the automotive sector, scientific and technological subjects in different fields such as alternative fuel technologies and automotive materials. At the Master's level, it is aimed to gain the skills of reaching the knowledge deeply by doing scientific research in the field of engineering, the skills of evaluating, interpreting and applying the knowledge.

At the doctoral level, it is aimed to educate engineers who will be able to research and produce information by getting international education, to serve the society and humanity by using it and to take the lead in technological developments in accordance with national needs.

Academic Staff

Prof. Dr. İsmet ÇEVİK

Prof.Dr. İbrahim ÖZSERT

Assos. Prof.Ahmet KOLİP

Assos. Prof. Murat KARABEKTAŞ

Assos. Prof. Kemal ERMIŞ

Assos. Prof.. İdris CESUR

Asst.Prof. Hüseyin KAHRAMAN

Asst.Prof.Alpaslan ALKAN

Prof.Dr. Can HAŞİMOĞLU

Prof.Dr. Yusuf ÇAY

Assos.Prof. Vezir AYHAN

Assos.Prof.Mehmet ÇALIŞKAN

Asst.Prof. Gökhan ERGEN

Asst.Prof. Aslan ÇOBAN

Asst.Prof. Recep KILIÇ

Graduate Programs

- Master Programs with Thesis
- Master Programs no Thesis
- PhD Programs
